SHELTERED HOUSING FACILITIES.

(g) Public barriers. Fixed public exhibits housing nonhuman primates, must have a barrier between the primary enclosure and the public at any time the public is present, that restricts physical contact between the public and the nonhuman primates.

The general public is allowed access to this facility on an appointment basis. One lemur enclosure and two capuchin enclosures which are accessible during public exhibition do not have barriers between the enclosures and the public. Physical contact must be restricted between the public and non-human primates to protect the well-being of the animals and the safety of the public.
