FACILITIES, OUTDOOR.

--During this time of the year, animals may need shelter from either sunlight or inclement weather. The shelter provided for the 4 elk including "One Toed Joe" is not large enough to accommodate all 4 animals at the same time if they chose to lay down or turn around. Inadequate shelter size was previously cited for the elk in the inspection of 2-8-99. Enclosures shall be constructed and maintained so as to provide sufficient space to allow each animal to make normal postural and social adjustments with adequate freedom of movement. Provide adequate shelter for all animals.
