INSPECTION REPORT

LAGOON CORPORATION

Customer ID: 3401

Certificate: 87-C-0002

PO BOX 696
FARMINGTON, UT 84025 0696

Site: 001

LAGOON CORPORATION

Inspection

Type: ROUTINE INSPECTION

Date: JUL-03-2002

This was a focused inspection relating to two complaints alleging a thin tiger; small cage sizes for the bear, lion, and tigers; and a concern about protection from the heat for these animals. Not all the hoofstock at the facility were inspected, although some were observed. Health records for the tiger were reviewed. His appearance is acceptable at this time given his old age health problems. The cage sizes for the bear, lion, and tigers all meet the AWA standards. The bear, lion, and tigers all have adequate shade and shelters.

No non-compliances were observed. The allegations in the two complaints were not confirmed.
