Date: Jun-05-2012

3.125 (a) REPEAT

FACILITIES, GENERAL.

Sec. 3.125 Facilities, general.

(a) Structural strength. The facility must be constructed of such material and of such strength as appropriate for the animals involved. The indoor and outdoor housing facilities shall be structurally sound and shall be maintained in good repair to protect the animals from injury and to contain the animals.

****Multiple enclosures (Tiger,lion,hyenas,bear,etc.) had exposed underground wire which may be dangerous to the animals if their paws and/or limb get caught and entangle in the exposed wire.

**** Housing facilities shall be structurally sound and shall be maintained in good repair to protect the animals from injury and to contain the animals.

3.127 (c) REPEAT

FACILITIES, OUTDOOR.

Sec. 3.127 Facilities, outdoor.

(c) Drainage. A suitable method shall be provided to rapidly eliminate excess water.

****The hyena enclosure had some areas of water accumulation which may result in bacterial overgrowth and the animals getting sick if they drink this water.

****The method of drainage shall comply with applicable Federal, State, and local laws and regulations relating to pollution control or the protection of the environment.

Inspection Report

3.130

REPEAT

WATERING.

Sec. 3.130 Watering.

****All water receptacles shall be kept clean and sanitary.

****Multiple water receptacles were observed with algae growing in them, sediment accumulation and the water was cloudy in color due to iron content in the water..

****In order to prevent gastrointestinal disease all water receptacles shall be kept clean and sanitary. A water filtration system may help.

****An exit interview was conducted with the licensee.
