3.125(a) Repeat

Facilities, general.

Three primary enclosures need maintenance and/or repair:

- The enclosure housing the lone orange tiger had a platform with boards showing signs of wear and deterioration.
- In the pig enclosure, there is a horizontal wooden post which helps support the fence. This post shows signs of wear and deterioration.
- The top rail of the goat enclosure has a section approximately 4 feet long that has missing and rotted wood.

Enclosures that contain sharp edges and excessive wear can cause injury or harm to the animals.

The indoor and outdoor housing facilities shall be structurally sound and shall be maintained in good repair to protect the animals from injury and to contain the animals. To be corrected by the next re-license inspection.

This is a 1st Re-License Inspection for a Class "C" license. The inspection and exit briefing were conducted with the applicant.

All items must be in compliance within 2 more inspections or by October 16, 2023, or the applicant will forfeit the license fee and must wait 6 months to reapply. Please contact your inspector to schedule your next Re-License Inspection.

Regulated activity can continue under your existing USDA license until it expires.
