ANIMAL ENTERTAINMENTS INC

Type: ROUTINE INSPECTION
Date: 25-AUG-2021

2.131(c)(1)

Handling of animals.

The facility reports on 7/17/21 a visitor was bit by a prairie dog on a finger and the bite broke the skin. The licensee said the the family was not forthcoming on how the person was able to get within reach of a prairie dog and I observed the barrier doesn't permit an average-sized adult to get into reach of the prairie dogs.

The licensee has made plans to reconfigure the viewing area to prevent any type of reaching over the barrier. Sufficient distance and barriers are necessary to prevent public contact with animals and to decrease the risk of harm to the public and exhibited animals. For the safety of the animals and the public, ensure that adequate barriers and distances are in place between exhibited animals and the general viewing public.

Correction: Ensure that corrective plans are completed to prevent further occurrences.

This inspection and exit interview were conducted with a facility representative.
