## INSPECTION REPORT

Lagoon Corporation  
P.O. Box 696  
Farmington, UT 84025

Site 1  
Lagoon  
375 N. Lagoon Drive  
Farmington, UT 84025

87-C-0002  
4-8-99  
1130  
Reinspection

### NARRATIVE

Inspected: 1 tiger                      1 jaguar                      2 lions  
                  2 camel                      3 llamas

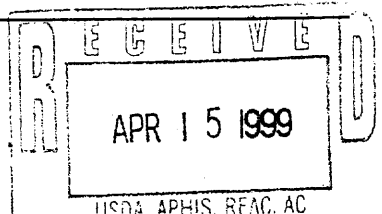

This inspection did not address all of the animals or animal areas at the facility. It was a follow-up on the inspection of 4-2-99 to observe veterinary care for a tiger. The trace mineral block located on the ground in the Fallow deer enclosure during the inspection of 4-2-99 was not reinspected, so this Category IV repeat non-compliant item was not re-evaluated on this inspection.

Accompanied on inspection by the attending veterinarian that provides care for the felids, and by David Silvester and Martin Aaron who are the Curators for Lagoon Corporation.

**CATEGORY I: Non-compliant item(s) previously identified that have been corrected.**  
**Veterinary Care, section 2.40 (b)**

“D”            --The male lion named “Rhondo” has received a veterinary evaluation and medical treatment involving supplements for anemia and medicine for arthritis has been instituted. Abnormal kidney function was confirmed. Not enough time has elapsed since the 4-2-99 inspection to determine whether a program of adequate daily observation to assess health and well-being with an adequate mechanism of direct and frequent communication with the attending veterinarian has been successfully developed. Some records are being kept. The person(s) doing the daily assessment of health and well-being must be adequately trained to make an accurate assessment. This will receive further evaluation in subsequent

GA

inspections.

**Cleaning and Sanitation, section 3.131 (a)**

--The feces which had built up for 4 days under the camel's shelter has been removed.

**CATEGORY IV: Non-compliant item(s) previously identified that have not been corrected.**

**Veterinary Care, section 2.40 (b)**

"D"

--A written plan signed by the attending veterinarian addressing what steps need to be taken to improve the safety of the capture and anesthesia procedures for the fallow deer has not been received at:

USDA, APHIS, AC, Western Region  
9580 Micron Ave., Suite J  
Sacramento, CA 95827-2623

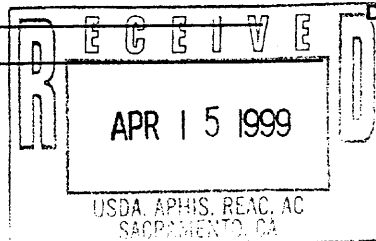

**Previous correction date was 3-1-99.**

--A written statement from the attending veterinarian detailing what steps have been taken to improve the health status of the Wild Kingdom Train exhibit elk was not received at the Western Region Office (see address listed above).

**Previous correction date was 3-1-99.**

End of Report.
